LA GRIPPE

Arrested, and Consumption Cured

Mr. G. D. Colwell, of Walkerville, Ontario, was stricken down with La Grippe about two weeks ago in very bad condition. He said he was all run down and hopeless. Consumption, he said, could not sleep at nights, had awful aches, and coughed nearly the whole time. This is how I was when I began to take Psychine. In a few days I was better, but then the first bottle I began to improve. It did improve me up, but then I used to break in no time, making a new man of me. It fortifies me, holds me against the attacks of La Grippe and it is sure preventative. I always take Psychine if I feel a cold coming on and it puts me right in no time.

NATIONALISTS MUST ENLIST NEW BLOOD

Great Progress Being Made in Ireland
**Says W. T. Sted—Young Men
North are Showing Open Mind
Towards Home Rule.**

London, March 29 (by W. T. Sted)—I have just returned from Dublin, where I spent three days seeing everyone who was worth seeing in the Irish capital, from the viceroy downward.

First and most welcome of all news is the fact that according to universal statement, the whole course of history, while course of her history been so prosperous and contented as she is today. After a long sojourn in the wilderness of probation, Ireland seems now almost on the verge of the permanent end.

We are in Beesling Fruit.

The great liberating work begun by the land league is now bearing its proper fruits. I am assured by the highest authorities that improvement in the country is now going very great. As you travel about the country it is easy to see by the improved appearance of the fields, and farm buildings, while farmers are putting into their occupants' ownership and which still pay rent. What did farmers have to do? They had to tell those who knew them thirty years since, could hardly recognize them today.

Secondly, over the last few months activities which sprang from the work of the recent committee are an immense stimulus to the giving of the organization of a new social order based, not upon class war, but upon a recognition of the right of man to work and of all classes. One hundred thousand farmers out of 400,000 are now associated in the United States Farmers' organizations of one kind and another.

Cromerians Resist Requisition.

Cromerians are resisting requisition and the price of Irish butter.

The Irish potato farm now more than holds its own with the English, and Cromerians are learning more and more the advantage of buying their fertilizer, and that may change the complexion of the communities.

The old social order, which was semi-feudal and centralized, is broken up, and the new order is essentially economic and democratic.

Thirdly, in the field of local government, there is a constant growth of various boards dealing with education, sanitation and the relief of the poor, have been created, and are democratic.

Fourthly, the question of buying the lands from the landlords and letting it to their tenants has been very successful. Altogether the British Government has given £1,000,000 for this transaction. Applications have been made for another \$300,000, and it is expected that one billion dollars will be needed before the last tenant has been converted into a proprietor.

Fitfully, Not Plutocracy such as Mr. Parnell wished, is a picture from reality today of the new order is abroad.

The Irish parliamentary party has been endeavoring to force the government to take the lead in the policy of ignoring the trouble. When the people started stonies at his door, he has been beaten, and the agitators have pursued their calling with impunity.

G.T.P. HELPS TO COLONIZE Settlers, Along New Road, Once Seeing Land Purchases.

Montreal, Mar. 23.—Mr. W. H. Hilton, general passenger agent of the Grand Trunk Pacific at Winnipeg, in a letter concerning the proposed passenger traffic manager, regarding the transfer of the completed section of the railway to the company, the operating department, and the train schedules for the coming summer, says that early this summer the whole of the 1,200 miles of road between Winnipeg to Edmonton will become under the operating department, regular schedule for passenger traffic.

Mr. Hilton stated that the main line from Winnipeg to Edmonton, the main line is also operating trains on the Topeka and Calgary branches, although all show the route and the trains are run for the convenience of the passengers.

The train service on the Grand Trunk Pacific has thus been for the convenience of the passengers, mainly, but Mr. Hilton says that due care has been taken of the long distance traffic, and the railway has expanded its services to meet the needs of the country from the United States.

In the matter of prospective colonists the new road has been more sure and prospective settlers have visited the country from the United States, there few have gone away without securing land and in the majority of cases bringing their friends with them.

SPINELLS RULE IN INDIA

**Ta-Pian-Yau Lord Justice
Replies to Press Urge.**

Victoria, Mar. 23.—W. H. Lyle, a planter of Assam, who arrived from India by the Empress of India, in India said: "The spinellos rule of vice, Earl Minto, is at the bottom of all our woes. The next will be like Kitchener or Curzon, who will take no nonsense."

"There is more than an oil well," said Mr. Lyle, "I afraid to move for fear one will shoot me." One reason he has attended some big function. Instead of driving up in style with his wife, he has been walking, and when he came he behaved on a monitor car. A walk that sort of virtue."

There is no doubt that the administration is failing in its efforts to put the fact that so many people have been killed, and there is nothing for them to blame the government for not doing more to help them.

The old social order, which was semi-feudal and centralized, is broken up, and the new order is essentially economic and democratic.

Fourthly, the question of buying the lands from the landlords and letting it to their tenants has been very successful. Altogether the British Government has given £1,000,000 for this transaction. Applications have been made for another \$300,000, and it is expected that one billion dollars will be needed before the last tenant has been converted into a proprietor.

Fitfully, Not Plutocracy such as Mr. Parnell wished, is a picture from reality today of the new order is abroad.

The Irish parliamentary party has been endeavoring to force the government to take the lead in the policy of ignoring the trouble. When the people started stonies at his door, he has been beaten, and the agitators have pursued their calling with impunity.

Winning Scavenger's Grusine Fund.

Winnipeg, Man., Mar. 24.—A sum of money was made this morning by scavenger, Harper, in the shape of a trinket, which was left in the back of the Winnings laundry in Neepawa, which was soon exposed as a tragedy and the coroner was notified. No one can claim ownership and it is thought to be accounted for by the prank of carelessness of some composed, there was some appearance of embalming, but apparently the body was brought back to the mayor's attention.

"It can exist in a free country," he burst out, when informed that an innocent man had been killed, and he had no right without permission to communicate with his family, and then turned up to meet the coroner, who was in the snow and weather for some time.
